**General Meeting  
7 pm November 29, 2017**

**ALL ABOUT AGATES**

**November’s General Meeting** will have multiple parts.

Most importantly we will Elect Officers for 2018.

Second, the program for this evening will be the showing of a DVD segment from the 2016 AGATE EXPO Symposium set. The featured speaker is Pat McMahan on “*Agates With Inclusions*”. His down-to-earth style and gorgeous examples will be supplemented with actual specimens from the collections of Ken Hoekstra and Bob Sherwood to give you a closer look at the various types. There will be time for a question and answer session.

Third is the Live Auction of 4 special Lake Superior agates from the Graves Collection (see photo on Page 4). Our President will be the auctioneer.

It will also be the final opportunity for each family to purchase a 2 pound bag of small Lake Superior agates for \$3. These bags were assembled by the ‘agate committee’ from the extensive collection the Club purchased from the family of deceased member, Larry Graves. There is a limit of one bag per family.

**Color Contest – BLACK**

For new members, here’s a quick explanation. Each month, all members are invited to bring a specimen to share with others as defined by the color of the month. They are displayed on a special table with a card (provided) with the name and origin of the specimen but NOT the name of the donor. During the break after all are set out, each person takes a penny (provided) and votes for their personal favorite. The one with the most pennies is awarded a modest prize.

**There will also be a Monthly Raffle (see Page 3) of 4 items.**

Club Calendar

**Dec 20 (Wed) – General Meeting, 7p, HMCC**  
**Jan 17 (Wed) Board Meeting, 7p, HMCC**  
*January 27 – Basement Field Trip – Sherwood's (Tentative)*  
**Jan 31 (Wed) – General Meeting, 7p, HMCC**  
*Feb 10 – Basement Field Trip – Tomaszewski's (Tentative)*  
**Feb 14 (Wed) Board Meeting, 7p, HMCC**  
**Feb 28 (Wed) – General Meeting, 7p, HMCC**  
 Mar 9-11 – Kansas City, MO  
**Mar 14 (Wed) Board Meeting, 7p, HMCC**  
*Mar 24 – Basement Field Trip – King's (Tentative)*  
**Mar 28 (Wed) – General Meeting, 7p, HMCC**  
 April 7-8 – Lincoln, NE Annual Show  
**Apr 11 (Wed) Board Meeting, 7p, HMCC**  
 April 14-15 – Canton, IL Annual Show  
**Apr 25 (Wed) – General Meeting, 7p, HMCC**  
**May 16 (Wed) Board Meeting, 7p, HMCC**  
**May 30 (Wed) – General Meeting, 7p, HMCC**  
**Jun 13 (Wed) Board Meeting, 7p, HMCC**  
**Jun 27 (Wed) – General Meeting, 7p, HMCC**  
**July Board/Picnic (Sat) Date TBD**  
**Aug 15 (Wed) Board Meeting, 7p, HMCC**  
**Aug 25 (Sat) Tailgate, Sam's Club (tentative)**  
**Aug 29 (Wed) – General Meeting, 7p, HMCC**  
**Sep 14-16 – 2018 Show (tentative)**  
**Oct 10 (Wed) Board Meeting, 7p, HMCC**  
**Oct 24 (Wed) – General Meeting, 7p, HMCC**  
**Nov 14 (Wed) Board Meeting, 7p, HMCC**  
**Nov 28 (Wed) – General Meeting, 7p, HMCC**  
**Dec 5 (Wed) Board Meeting, 7p, HMCC**  
**Dec 19 (Wed) – General Meeting, 7p, HMCC**

For 2017, there are fifteen (15) positions, which have one vote each. There are currently (16) persons on the Board (two persons share one position).

**Rock Swap**

I know our club is generous, and we have an opportunity to show that with an exchange with the Spring River Gem and Mineral Club of Cherokee Village, Arkansas. We were contacted and asked if we would like to swap boxes of minerals, fossils or gems. After checking to make sure this was legitimate the board decided this would be a great opportunity. The SRGMC shares the rocks they receive in a monthly silent auction at their meetings.

We will have a Priority Mail container in the back of the room at our November 29th meeting and will accept specimens to send to our new friends of the Spring River Gem and Mineral Club.

If you're wondering what to share, they would like clean specimens that are properly labeled with the name and collection place. They are looking for materials we have collected on our field trips, but other individual collecting would be good, too. Their group specializes in minerals, but they also have some who collect fossils and some lapidary material. Think of what you would want to bid on if you lived in Arkansas and didn't have the opportunities we've had for field trips.

When we receive our exchange box we'll be looking for a similar opportunity to share with our club members – quite possibly a silent auction of our own. I've been told that many of the specimens they will be sharing have come from now-closed quarries. They've been finding the same challenges as we have in collecting opportunities, but this opens up a whole new possibility for us to add different materials to our collections!

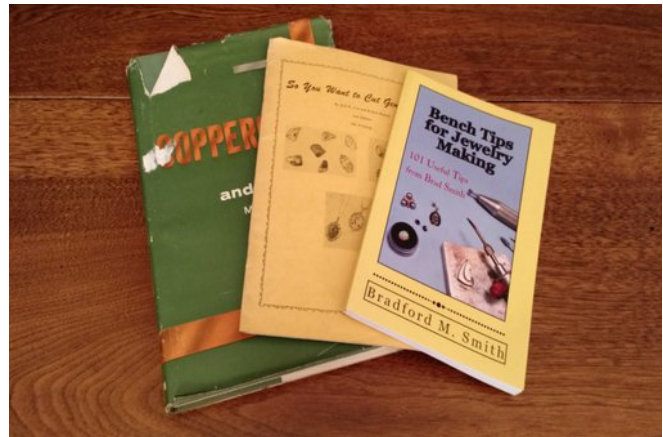

*Please put your specimens in a Ziploc bag, properly labeled (The label IN the bag is convenient!) This will facilitate packing and shipping. Thank you! - Editor*

## Monthly Raffle – November

Again, in explanation for the benefit of new members, this is a meeting feature that we have most months but not always. Several items are offered as raffle items from a batch that have been donated “for the cause” over time. These pictured items will be raffled in November, with the drawing after the refreshment break. The money collected tonight, and in December, will be allocated to a “Speaker Fund” to bring the Club someone special to speak at the April 2018 Scholarship Banquet. The April meeting is traditionally a Potluck Banquet where we award Geology majors from Hope College and Grand Valley State University a budgeted amount. Awardees are chosen by their own faculty. These Scholarships are a major beneficiary of our annual Show proceeds. Tickets for the raffle are \$1 each or 6 for \$5.

Glass slag chunk!

Jewelry Technique Books

"Big Diggins" Agate, Deming, NM

Rock Critter

## Rock Prize Update

Juniors, have you got an idea yet for a project for the Gem & Mineral Club's RockPrize? Maybe you've already got something underway. A bracelet or necklace or something made out of a rock or mineral specimen? A painted pet rock? Maybe a drawing of a rock or mineral formation, or one incorporating a mineral or crystal? How about a photo of a mineral or of a geological formation, or an informative or humorous poster or video on a geological subject? These are just a tiny fraction of the possibilities you could create for the Club's RockPrize event.

If you're feeling extra-artistic you can create more than one RockPrize item and you can enter creations of more than one kind. So you could submit a photograph of a specimen from your collection and also an object you made with a rock or mineral. *(continued on next page)*

### Rock Prize Update (continued)

(from Page 3) Your Rock Prize creations will be grouped into younger and older age divisions, and club members will have a chance to vote for their favorites. All participants will receive a rock prize for their efforts and the top vote getters in each age division will receive special rock prizes.

Just bring your creation to the December 20 meeting where a display table will be set up. Use a 3 x 5 card to identify your creation with the title or description on one side of the card and your name and age on the other side of the card. Any questions? Just ask one of your junior advisors.

### Live Auction – Agates from Larry Graves Collections

These agates will be auctioned at our November meeting.

**October 11, 2017 Board Meeting  
Howard Miller Community Center**

7:00 PM – Call to Order

Agenda Approval: Motion: Jackie Helder, Second: Rick Smith, Motion Passed.

Approval of Minutes of the August 16, 2017 Board Meeting, as corrected, Motion made by Sue Goedert, Second by Rudy Silich, motion passed.

Approval of Minutes of the August 30, 2017 General Membership Meeting, as corrected, Motion made by Rick Smith, seconded by Linda W., motion passed.

September Treasurers report – Patti DeGroot distributed copies of the Show income and partial accounting of expenses as they are still coming in. Please get your receipts in ASAP.

**Board reports**

President – C.H. Falstad :

What an impressive and truly amazing show! I'm thrilled by the number of people attending from far and wide, the great camaraderie and comments from visitors and the absolutely amazing helpfulness of SO many people to pull this off. Everyone chipped in to make this a fun and highly successful program that certainly met the mission of our club, but also entertained and brought the love of geology to a large community. I'm sure we can spot some areas that can be improved even further, but I think this was a fine way to celebrate our club's 50th anniversary. We did a few things differently, and the results were quite positive.

I wasn't able to get around to visit all the vendors and I apologize for that. I was able to talk with a few that also saw the show this year as a very good event. Some of the vendors even saw to gift us with some very nice pieces and material that will come in quite useful for many possible purposes. One vendor gave us about 8 to 10 flats of various material that was all very exciting. I was also approached by an individual who had possession of an old collection that he wanted to know if the club might be interested in obtaining. I would like to discuss the best way to entertain offers and donations and see if the board would like to establish some sort of protocol for using unrestricted donations and such.

The field trip on October 7th seemed to be highly energizing. From the buckets of geodes we collected to the crawfish and salamanders, there was something for everyone, and it sounded like everyone was going home with at least as much as they expected. One member even had some success gold panning! You never know what you'll find on a TCMGC field trip. Carpooling worked very well, and even though the location wasn't an easy one to map or give directions the trip down was pretty uneventful.

The October meeting will be a Silent Auction activity. There will be no raffle or colored rock contest this month. The November meeting will be the last chance for members to purchase a bag of Lake Superior Agates if they have not purchased one yet. Some larger agates will be available for sale.

Immediate Past President – Bob Sherwood

Vice President – Julia Sherwood: Julia is planning the meeting schedule for next year. There was some discussion on modifying the meetings in the holiday season next year. The October meeting will be a member Silent Auction. There will be no Color Contest or Monthly Raffle.

Editor – Rudy Silich, Please have your articles in by Friday, October 13, Midnight!

Field Trip Coordinator – Bob Sinke: We went on a field trip to southern Indiana with 26 members to collect Geodes. A second trip is being planned for October 28th to check out a gravel pit/quarry near Allendale.

Historian – Liz Hoekstra: Liz discussed the large beautiful quartz plate that was donated to the club by the daughter of Jean Prys. We displayed it in a case at this year's show. Liz thanked Dan DeGroot for setting up the display cabinet with special lighting and a turntable.

Junior Leaders – Linda Winkelmann and Rick Smith: The Junior Members will have a presentation on Apatite at the next General Meeting in October. Adults should attend the business meeting.

Liaison – Jackie Helder – Nothing new.

Membership Coordinator – Chris Silich had 33 new members sign up at the Show.

*(Board minutes continued on Page 6)*

**Tulip City Gem & Mineral Club  
October 25, 2017, 7 p.m.  
General Meeting Minutes  
Howard Miller Community Center**

Attendance: Adults: 78 Juniors: 20

Welcome: There were a several new Members and Visitors attending.

There were no Door Prizes at this meeting.

Rick Smith made an announcement about our new RockPrize program for Juniors to express their art capabilities using geology as the media subject. Everyone will get a prize for an entry.

The Junior members will have a presentation tonight on the mineral Apatite.

Dismiss the Juniors to the other meeting room.

President's Remarks: C.H. Falstad thanked all those that helped out with our Show and especially Sue Goedert for chairing the show committee..

Vice Pres. -Julia Sherwood explained how our Silent Auction will be run tonight.

Past President – Bob Sherwood chaired the Nominating Committee along with Linda Winkelmann and Deb Smith. Bob introduced all of the prospective Board members that were present:

President: C.H. Falstad, Vice President: Peter Riemersma & Julia Sherwood, Treasurer: Patti DeGroot, Secretary: Dan DeGroot, Show Chair: Sue Goedert, Field Trips: Bob Sinke, Social Coordinator: Linda Plumert, Junior Club Coordinators: Rick Smith & Linda Winkelmann, Historian: Liz Hoekstra, Liaison: Deb Smith, Membership Coordinator: Chris Silich, Newsletter Editor: Rudy Silich, Directors at Large: Dan Nevins & Amy Dickenson

Treasurer – Patti DeGroot gave the Financial Report.

Show Chair - Sue Goedert: Sue reported on the Show. We have selected the theme for next years TCGMC Mineral Show.

Field Trips – Bob Sinke is planning a trip to a fossil pit in Allendale near the Grand River on October 28th. Please signup and talk to Bob for directions.

Hospitality – Linda Plumert: Tonight some of the snacks were items that were left from last months show.

Julia Sherwood commented that next months program will be the election of the new Board of Directors. After the election we will show a DVD on Agates and have a short auction of some of the larger Larry Graves Lake Superior Agates. There will also be some two pound bags of small agates for \$3 per bag.

Break for Refreshments:

Program for this evening: Silent Auction with separate tables for General club members, two tables for Junior club members and a separate table for club items where the club retains all funds from the sale items. Patti DeGroot our Treasurer will be on hand to collect the money at the club table and make change for those that need it. Write the Final auction price of the item on the bottom of the auction sheets. The club retains the bottom half for tracking income.

*(Meeting minutes conclude on Page 7)*

### Board Meeting Minutes (*continued from Page 5*)

Show Chair – Sue Goedert reminded us that there will be a show wrap-up meeting on Wednesday October 18th at 7pm at the Howard Miller Community Center. There will also be a discussion of next year's theme.

Social Coordinator – Linda Plumert : There are many leftovers from the show that we will have for Hospitality at the next General Meeting. We have plenty of extra paper products for use at next year's show.

Directors-at-Large – Teresa DeMol: nothing new; Dan Nevins: not present.

Correspondence: Letters will be sent out thanking those vendors who donated minerals and jewelry items to the club for sales and promotions.

#### **New Business:**

- 2018 Tailgate activity will be chaired by Dan Nevins.

Board Nominating Committee Report: Proposed slate for 2018:

C.H. Falstad, President	Deb Smith, Liaison
Peter Riemersma and Julia Sherwood, Vice President	Christine Silich, Membership
Dan DeGroot, Secretary	Rudy Silich, Newsletter Editor
Patti DeGroot, Treasurer	Sue Goedert, Show Coordinator
Bob Sinke, Field Trips	Linda Plumert, Social Coordinator
Liz Hoekstra, Historian	Dan Nevins Director-at-Large
Rick Smith and Linda Winkelmann, Junior Club	Amy Dickenson, Director-at-Large

- A new volunteer is needed to handle the monthly raffle activity. (2005 to Present)
- Rick Smith proposed a Rock-Prize activity (a TCGMC version of “Art Prize”) for our Junior members. Each entry may require a minimum of two month's notice to prepare for their presentation. Liz and Ken Hoekstra have offered to donate thundereggs for the prizes. Everyone will get something for competing. We are proposing initiating this program for the December meeting.
- Sue Goedert and Patti DeGroot are working on the show report. There are still receipts coming in which affect the show final income.
- A question came up about how to handle donations of minerals to our club from vendors and from private donors/estates etc. Bob Sinke made a motion to assemble an Ad Hoc Committee to study/advise on donations, Bob Sherwood seconded the motion, and the motion passed.

#### Items from visiting members:

Ken Hoekstra was approached by a person at our show who would like the club to remove a large amount of Petoskey stone and other lake stones that have been collected over several years. Ken has seen the rocks which may be several tons worth. The quality of stone is not readily available due to a power failure at the time of inspection. A motion was made by Bob Sherwood to pursue this opportunity, Julia Sherwood seconded the motion, motion was passed. Ken Hoekstra will pursue the source and followup with any terms or conditions of obtaining this treasure.

Meeting adjourned at 9 PM.

Meeting notes submitted by:  
Dan DeGroot, Secretary

### Basement Field Trips!

Three field trips are planned for 2018. Details will be listed in the December Conglomerate, but for now mark your calendars or in-boxes and save the following dates.

January 27,2018 Bob and Julia Sherwood

February10,2018 Kreigh Tomaszewski

March 24,2018 Roger King

Times will be the same for all three 1-4pm

### Wayne State University's New Geology Museum

Some of the rarest items in Wayne State's collection of geological specimens are on display at their new Geology Mineral Museum. Items include minerals once owned by Thomas Edison, a meteorite, and a collection of nearly 50 agates from around the world.

The Edison collection cotains 94 pieces handpicked for the inventor by a Tiffany &Co gemologist in the early 1900s. The collection was gifted from Edison to Henry Ford and eventually stored at the Ford Rouge Factory. A factory empolyee gave the treasue trove of gems and minerals to Wayne State in the 1940s after he found them tossed out with the trash.

The museum is located on the lower level of Wayne State's Old Main building. It opened to the public in May 2016.

*This information was blatantly lifted from the September 2016 issue of Michigan History.*

### General Meeting Minutes (*continued from Page 5*)

Bids will close on some tables starting at 8:15 pm. All buyers of silent auction items are expected to seek out the original owners of the items and then pay them. Please ask a club member if you dont know who to pay. Liz Hoekstra has packing materials if you need a bag.

There were several FREE magazines and display racks in the back of the room.

Meeting Notes by:

Dan DeGroot, Secretary

Augustynolophus morrisoni, California's new State Dinosaur, a member of the Hadrosauridae family. (from the ALAA Newsletter Vol 9 Issue 4

**Rules for Meteorite Hunters on Public lands**  
**UNITED STATES DEPARTMENT OF THE INTERIOR**  
**BUREAU OF LAND MANAGEMENT**

**Casual Collection:**

Meteorites may be casually collected (i.e., free and without a permit), pursuant to BLM's regulations at 43 CFR 8365.1-5. In accordance with those regulations:

Collection of meteorites is limited to certain public lands. Public lands closed to casual collection include: developed recreation sites, certain units of the National Landscape Conservation System, areas excluded from casual collection in a Land Use Plan such as an Area of Critical Environmental Concern (ACEC) or a wilderness area, and areas closed by supplemental regulations;

Individuals are limited to collecting what can be easily hand-carried, up to a maximum of ten pounds of meteorites per individual, per year; Only surface collection of meteorites using non-motorized and non-mechanical equipment is allowed (metal detectors may be used); and

**Casually-collected meteorites are for personal use only, and may not be bartered or sold for commercial purposes.**

**Latest From the Barstow, California BLM Office**

Katrina Simmons

I've checked manuals, handbooks, instruction memorandums (IM) and the 43 CFRs. There is no other guidance that I found. I did find discussion concerning the desire to revise 43 CFR 8365.1-5 but a change to the CFR has not occurred. If I received a request related to meteorites, I would use the 2012 IM even though it is expired as its the best guidance I found. Hope all is well with you.

Respectfully, Kat.

**News from Montana**

**Ken Zahn - Bozeman, Montana**

The October 11, 2017, announcement of the BLM decision to withdraw its previous application to the DOI to prohibit all new mining claim filings on 10.3 million acres of the west's public lands for at least 20 years is truly spectacular news for mineral development, recreational rockhounding, and access to our public lands, as even the original 10-million-acre, 2-year "temporary" withdrawal from mineral location also brought with it road and access restrictions through the sagebrush focal area sub-category of habitat (SFAs). It was gratifying to see that in discussing the BLM's rationale for withdrawing the 20-year "location-withdrawal" application, and its supporting EIS, the BLM and new Secretary of Interior had clearly considered many of the 2016 Draft EIS comments made by organizations and individual commenters who advocated for retention of existing (or more) public-land access and multiple use -- not less.

**News From Washington, DC**

Secretary Zinke has requested public comments on any and all DOI regulations. This is a fantastic opportunity for the public to speak up about any regulation in any DOI division. Just follow the link, click on the comment now button next to the department that oversees the regulation you are commenting on and make your comments.

<https://www.regulations.gov/docket?D=DOI-2017-0003>

## Junior Rock Club Page

### "Fluorite – Not Too Hard to Get to Like"

At our November junior meeting we'll learn about two connected topics: the Mohs Hardness Scale and the mineral fluorite.

One internet site calls fluorite "the world's most colorful mineral" because it occurs in such a wide variety of colors. That's pretty interesting for a mineral with such a simple chemical formula:  $\text{CaF}_2$ . Your take home specimen (donated to by mineral dealer Kevin Ponzio) is a terrific shade of deep purple, but we'll have show-and-tell specimens illustrating all sorts of fluorite's color variations like blue, green, orange, and yellow and even some specimens with multiple colors.

If you attended our October meeting you will have already learned a bit about the Mohs Hardness Scale and how it works. In November we'll build on that foundation: your take-home specimen of fluorite will become, not just an addition to your collection, but a tool you can use to determine the identity of a couple of pink "mystery minerals" we'll provide. And you can also confirm that your purple take-specimen is fluorite and not "that other purple mineral" amethyst.

Why not join us for our Junior Meeting on fluorite and the Mohs Hardness Scale, Wednesday, November 29 at 7:00 at Zeeland's Howard Miller Community Center.

Rick Smith & Linda Winkelmann  
Junior Club Leaders

Blue! (from en.wikipedia.org)

Gold! (from iRocks.com)

Purple! (Frome dakotamatrix.com)

Orange-pink? Salmon? (from wikipedia)

Our club is a non-profit organization sponsored by the Holland Recreation Department. it is a member of the Midwest Federation and the American Federation of Mineralogical Societies. The general purpose of this club is to develop interest in and increased knowledge of minerals, rocks, gems, fossils, and the lapidary arts. The objectives of this club shall be promoted whenever Possible, through family participation.

To become a member, complete the form at [www.tulipcity.org](http://www.tulipcity.org)

The deadline for submissions is 5p the Thursday after the Board Meeting.

Advertising rates for club members are: \$5 for business card size, \$10 for ¼ page, \$15 for ½ page, \$30 for full page. non-member rates are double. Make check payable To: TCG&M with ad copy to Editor.

Meetings are held monthly on the last Wednesday of the month at the Howard Miller Community Center, 14 S. Church Street, Zeeland, MI at 7pm, unless announced otherwise in the TULIP CITY CONGLOMERATE. Junior Club welcomes young rockhounds and meets separately during the meeting.
